BANKING BILL KILLED.

Measure Providing For Examination Defeated by a Decisive Vote.

TERMS OF SUPREME COURT JUDGES

Will Not Be Increased to Twelve Years as the Bill Was Defeated in the House—Other Legislative News.

Columbus, O., April 15.—The house disposed of one resolution and six general bills. The resolution was offered by Representative Silberberg of Hamilton county and provides for an appropriation of \$25,000 by the state to be used with a similar sum to be raised by citizens of Columbus for the purpose of erecting a memorial arch to the late President McKinley.

The bill introduced sometime ago by Representative Chapman of Montgomery county, to amend the pure food laws, was defeated by a very decisive vote. The bill sought to provide that mayors, justices of the peace and police judges are to have final jurisdiction in cases brought for violation of the pure food laws and fixed things up that no jury trial could be had by the defendants. The bill received only 35 votes, but 3 were cast against it.

The bill to increase the term of judges of the supreme court from 6 to 12 years was defeated.

Bills were introduced in the house as follows: Requiring that manuscripts filed by teachers taking county examinations be filed by the examiners with the county auditor for public inspection; to prevent employers from discriminating against any applicant for employment because of age; to compel baseball managers to provide seats with coverings, thus dispensing with "bleachers"; to provide that railway companies operating 200 miles or less in Ohio, where buffet or dining cars furnish maltous or vinous liquors, pay an annual tax of \$350, and those operating more than 200 miles pay an annual tax of \$700; to pay county recorder 10 cents for each name on the deed or mortgage filed on the daily register.

In the Senate. The Moore banking bill, providing for the codification of the laws relating to banking and the examination of incorporated banks, was brought up in the senate during the day and caused a lively debate. A number of amendments were offered by members in the interests of private banking institutions, but were defeated in turns, and then on the final roll call the bill itself was defeated by vote of 13 yeas to 18 nays. The backbone of the opposition to the bill was that it discriminated against the private banks of the state and in favor of national and state banks. The defeat of the measure was clinched by the usual motion to reconsider, which was lost.

The senate committee on taxation reported favorably the Longworth bill giving the state board of appraisers and assessors power to appoint city boards of review on the recommendation of the county auditor. This is the Longworth "ripper" bill which has been so vehemently opposed by Mayor Tom L. Johnson of Cleveland, as it would take from him the power to appoint these boards in the city of Cleveland, and would similarly affect Mayor Hinkle of this city and Mayor Jones of Toledo.

Senator Burnham offered a joint resolution, which was adopted under a suspension of the rules, authorizing the president and secretary of the board of trustees of the Dayton State hospital to execute to the Dayton, Cincinnati and Lebanon railway a deed for three strips of land, in the aggregate not exceeding 3-5 acres, for a spur track to the hospital farm and ground.

Sensors Patterson, Hosea and Herick were appointed a committee to draft suitable resolutions on the death of former State Senator Byron Lutz, who died at his home in Chillicothe Monday.

Not an Effective Boycott.

Kansas City, April 15.—The boycott started by the Kansas City Live Stock commission men, who last week urged their customers to ship to other markets, had no appreciable effect on the receipts here except possibly in the case of sheep. The arrivals of cattle amounted to 5,000 head, against 6,400 head last week, while the receipts of hogs were 7,000 against 6,000 on last Tuesday. But 600 sheep was received compared with 4,200 a week ago.

France Will Participate.

Paris, April 15.—A decree was signed by President Loubet providing for the participation of France at the St. Louis exposition and appointing M. Michael La Grave commissioner general of the French section.

CHINESE EXCLUSION BILL.

Further Discussion of the Measure in the Senate.

Washington, April 15.—When the senate met Mr. Hansbrough, from the committee on public lands, reported the house bill legalizing the manual of surveying instructions of the general land office, and the bill was passed. The senate then resumed consideration of the Chinese exclusion bill, and Mr. Gallinger read a number of telegrams referring to the bill. Mr. Perkins (Cal.) submitted a large number of dispatches supporting the bill. One of the telegrams was from the mayor and board of supervisors of legislative body of San Francisco, declaring that the opposition of the Chamber of Commerce did not represent the position of the people of the Pacific coast, who asked the passage of the senate bill.

The bill then was laid aside and the senate held an executive session.

Must Return Property.

Chicago, April 15.—Judge Neely decided the case of Fred M. Libby against Josephine Libby to recover property worth about \$58,000. The court ordered a division of the property, giving Mr. Libby the lion's share. Mrs. Libby must return to the complainant all the real estate she holds save one piece, one-half the bonds which she now holds, but which once belonged to her husband, and a life insurance policy for \$3,000. Mr. Libby married the defendant in Ft. Dodge, Ia., in 1880, and for 20 years, he says, they lived happily together. His wife then formed a conspiracy with two sons by two former marriages and her sisters, to deprive him of his property. When Mrs. Libby left him in 1899 he was practically penniless. The complainant was formerly a broker in Boston.

Unknown Prisoner Burned.

Duluth, Minn., April 15.—Telephone advices received from Eveleth reported the destruction by fire of the city jail and the blowing up of the Duluth, Missabe and Northern railroad depot by burglars, at that place. In the jail fire, an unknown prisoner was burned to death. Several hours later burglars blew up the depot safe. They overestimated the amount of nitroglycerin needed and as a result there was a report that woke up the entire town and shattered windows in the houses for blocks around. When citizens reached the scene of the explosion, the station lay in ruins and had caught fire from the stove. The flames were extinguished and then an unsuccessful search was made for the safe. It was too big to carry away, and it is thought it must have been blown to pieces.

Shaffer Has Opposition.

Wheeling, April 15.—The opening session of the Amalgamated association convention was called to order by President Shaffer, with over 200 delegates in attendance. It is believed the wage committee will report favorably on the recent agreements entered into with the American Tin Plate, American Sheet Steel, American Steel Hoop and Republic Iron and Steel companies and that the convention will ratify what has been done. There is much interest in the presidency. Shaffer is an avowed candidate for reelection, and Assistant Secretary Michael F. Tighe is being boomed by his admirers. No other candidates are mentioned at this time. Secretary John Williams will be re-elected without opposition.

Wants to Close Debate.

Washington, April 15.—Before the debate upon the Cuban reciprocity bill in the house was resumed, Mr. Payne, the floor leader of the majority, attempted to reach an agreement to close the debate on Thursday. He suggested night sessions until that day, but all his overtures were rejected. Mr. Richardson, the minority leader, demanding the regular order. Thereupon Mr. Payne gave notice that at the first opportunity he would move to limit the debate. Mr. Swanson (Va.), a member of the ways and means committee, the first speaker, favored the bill.

Received an Infernal Machine.

Grand Junction, Colo., April 15.—An infernal machine passed through the local postoffice and was delivered to Isaac C. Wyman, the Boston millionaire, to whom it was addressed. Mr. Wyman is the owner of the Rock Cliff railroad in this valley. He handled the package carefully and there was no explosion. The machine was inserted in a pasteboard box in such a manner that had it been forced an explosion would have followed. The infernal machine was turned over to the postoffice authorities.

Stock Brokers Confer.

New York, April 15.—Negotiations looking to a settlement of the Louisville and Nashville situation were resumed at the banking house of J. P. Morgan & Co. A conference began before the opening of the stock market.

MR. BALFOUR DECLINES

To Inform the House of Commons About Peace Negotiations.

PROMISES TO INFORM PARLIAMENT.

The Government Leader Virtually Admits That There Has Been No Agreement Reached Between the Boers and the British.

London, April 15.—The government leader, A. J. Balfour, replying to a question in the house of commons, announced that the ministers had no information to impart on the subject of the South African peace negotiations, nor under the circumstances could any information be imparted at the present stage of the negotiations. The government, Mr. Balfour added, would immediately inform parliament of the fact when they had any news to communicate.

The new British loan of £22,000,000 is to be raised by an issue of 2 1/2 per cent consols.

The budget proposals presented to the house of commons are received fairly well on the stock exchange, where the various departments developed no particular feature with the exception of a drop in consols on selling, preparatory to the issue of the new loan, which operators generally seem to consider will take the form of a fresh issue of consols. Operators on the exchange continued to be hopeful as to the outcome of the peace conference at Pretoria.

The British cabinet met at noon. Among other business considered was the reply of the Boer leaders to the government's communication mentioned by A. J. Balfour, the government leader in the house of commons.

The chancellor of the exchequer, Sir Michael Hicks Beach, in answer to a question, said a rebate would not be allowed on forward grain contracts, as was allowed in the case of coal contracts last year. The chancellor added that he could not say on the spur of the moment whether the term "grain" included peas, haricot beans, somolina, etc., but he was inclined to think they were included in that term.

A SUPPOSED CORPSE

Suddenly Arrives in His Coffin While Being Carried Out.

New York, April 15.—Four assistants to an undertaker suddenly dropped a coffin they were carrying out of the Paterson, N. J., jail door when the supposed corpse broke open the lid and sat up and in vociferous Italian said he was not dead. He was Alexander Scazeletta, who had been imprisoned for some slight offense.

He had been called in the morning by the keeper but did not respond. His cell was opened and the man could not be aroused. The jail officials were informed and they sent for a physician, telling him that a prisoner had died in the night. The doctor made a casual examination and pronounced the man dead and the undertaker was sent for. His employees were carrying the supposed corpse out to the wagon when Scazeletta opened his eyes and sat up in the coffin. For two days he talked incessantly in jail, but on Saturday he apparently lost the power of speech, only to recover it in the coffin. The jail physician ordered his release.

Convention of Manufacturers.

Indianapolis, April 15.—The seventh annual convention of the National Association of Manufacturers was called to order by D. M. Parry of Indianapolis. He introduced W. H. Hart, state auditor, who made the address of welcome for the state instead of Governor Durbin, now engaged in a prison investigation at Michigan City. The welcome from the city of Indianapolis was extended by Mayor Charles A. Bookwalter. The Toledo (Ohio) delegation already here will be reinforced by Mayor Jones and several other business men, all bent on taking the next national convention to Toledo. So far it is Toledo against New Orleans for the next convention.

Hunting For Outlaws.

Gate City, Va., April 15.—A large force of heavily armed men is on the trail of the Wright and Templeton gang of outlaws for the purpose of driving them to their mountain stronghold and a bloody battle is expected when the forces meet. The officers now claim to have positive proof that the gang was the one which robbed the Reynolds store and postoffice at Purchase, Scott county, Va., last Wednesday night and the store and postoffice at Skelton, Tenn., Saturday.

New York, April 15.—William H. Wallace, a prominent member of the New York Exchange, and known among grain men all over the United States, is dead.

SHOCKING ACCIDENT.

Two Officers and Nine Blue Jackets Killed by a Bursting Gun.

Queenstown, April 15.—Gunner Lieutenant H. S. Bourne, Lieutenant Miller and nine blue jackets were instantly killed by the bursting of a 12-inch gun on board the British first-class battleship Mars during gun practice off Berehaven. In addition several men were injured by the explosion. The breech of the gun blew out after it had twice missed fire. The bodies of the two men who were sighting the gun were scattered to pieces and blown overboard. The injured seamen were brought ashore here.

Letter From Knox.

Washington, April 15.—A letter from Attorney General Knox relative to the so-called beef trust was made public by Representative Ray of New York, chairman of the house committee on judiciary in view of the attorney general's letter the judiciary committee decided without discussion to recommend that the resolution asking the attorney general what steps he had taken against the beef trust be laid on the table. The attorney general's letter is given in Chairman Ray's report on the resolution. Continuing the letter says: "It is proper, I think, however, to add that owing to the positive, official repeated and circumstantial nature of the allegations, that the law is being flagrantly violated, I directed some time ago a thorough investigation to be made by one of the district attorneys of the United States for the purpose of ascertaining whether in fact such combination existed and whether if so its operations were in violation of any federal statute."

Drew Pay Fraudulently.

Detroit, April 15.—Captain Charles T. Witherall, United States army, retired, was tried by courtmartial at Fort Wayne on the charge of duplicating his pay vouchers for November and December, 1901, and January, 1902. Captain Witherall's attorney at the opening of the court contended that his client's stipend from the government as retired officer was not pay, but pension, and that therefore he was not amenable to courtmartial for the alleged duplication. The contention was overruled by the court, and a plea of not guilty was then entered.

Bond For Rathbone.

Havana, April 15.—A fidelity company has filed a bond for \$100,000 with the court, as bail for the appearance of E. G. Rathbone, the former director of posts, on his appeal. This company's bond was refused when offered for the appearance of Mr. Rathbone when he was first arrested, but his lawyers now insist that according to law and in the interests of justice bail should be accepted. The company has risks amounting to \$2,000,000 in Cuba, mostly on account of government employees. The president of the court has consulted with Governor Wood.

Charges Against Guards.

Chicago, April 15.—Six affidavits were filed with the civil service commission, making charges against several of the guards at the Bridewell. These affidavits specifically charge Guards Delaney, Connors, Ross, Durkin and Reidy with using abusive language toward prisoners, beating them with clubs and in other ways mistreating them, calling attention to particular instances of alleged brutality, which have resulted in bodily injury to prisoners. An investigation will be made.

High Price For Farms.

New York, April 15.—James R. Haggin has asked \$200,000 for the old Cowenhoven and Ryder farms, adjoining the Sheephead Bay race course. The properties comprise 89 acres and adjoin the track, which Mr. Haggin bought last fall. He already has started the building of an extensive racing establishment. His neighbors around the Sheephead Bay race course are William C. Whitney, James R. Keene, Perry Belmont, F. R. Hitchcock and others owners of thoroughbreds.

Baltimore, April 15.—The city council has rejected Mayor Hayes' ordinance providing for the sale of the city's interest in the Western Maryland railroad to the Fuller syndicate. The special committee to which the different bids were referred was ordered to report back to the council on all bids next Monday. This practically places the disposition of the city's interests under the sole control of the council.

Killed a Mail Carrier.

Cincinnati, April 15.—Jack Collins, alias Lunford Craft, aged 19, was brought from Wise, Va., to Covington, Ky., and later confessed that he and a companion, whom he refused to name, last Jan. 29, killed a rural mail carrier in Magoffin county, Ky., and secured \$30 in rifling the mail sack.

DISORDER IN BELGIUM.

Socialist Disturbances Are Reported to Have Occurred at Namur.

STRIKE IS STEADILY EXTENDING.

Request of Socialists to Be Allowed to Follow Their Own Devices in Burying Rioters Is Refused.

Brussels, April 15.—In consequence of the disorders the pupils of several communal schools have been dismissed and the premises utilized as barracks for the troops.

Socialist disturbances occurred during the night at Namur. A mob stoned the police, who charged with drawn swords. Subsequently a force of gendarmes scattered the rioters.

The strike is steadily extending in both this city and its suburbs, and especially at Molenback, where a number of large factories have stopped work. The military and police have adopted more stringent measures to preserve order.

The burgomaster has refused Socialists' requests to be allowed to follow their own devices in burying the Socialists killed during Saturday's riots. Orders have been issued for the procession to be held at 6 in the morning, without bands or funeral emblems. Otherwise the interment must be carried out at night.

It is estimated that the strikers in the Charleroi district now number 50,000. There are frequent parades there, but the town is generally peaceful in accordance with the advice of the strike leaders.

Farewell to President Palma.

New York, April 15.—Thomas Estrada Palma, president-elect of Cuba, took leave of his friends of Central Valley, N. Y., among whom he lived during 18 years of exile from his country. A large crowd gathered at his old home early and escorted him to the station, where another large crowd had assembled. The local volunteer firemen and schoolchildren, headed by the village band, paraded and nearly every one in the procession carried an American or Cuban flag. Farewell addresses on behalf of the citizens were made by the Rev. F. C. Hadding and Irvine Washburn and Mr. Palma made a brief response. He said that he left Central Valley with regret, for it had been a haven to him when he was driven from his own country. The people had always treated him with great kindness, he added, and would always remember it with feelings of deep gratefulness. President Underwood of the Erie railway, gave President-elect Palma the use of his private car for the trip to New York. It was decorated with Cuban flags, bunting and ferns.

Need of Preserving Forests.

Honolulu, April 15.—E. J. Griffith, forester of the agricultural department at Washington, who stopped here and made an investigation of conditions on his way to the Philippines, has sent to Governor Dole a report of his findings as to Hawaii. Griffith declares the cattle have done vast damage to the forests, killing the undergrowth so that the trees have died, with the result that the rainfall and water supplies have been much diminished. He recommends that the high forest areas be fenced and cattle kept out of them.

Condition of Crops.

Washington, April 15.—The weather bureau's weekly summary of crop conditions is as follows: "Although the temperature since March 1 has averaged above the normal over the northern portion of the country west of the Rocky mountains the season is reported as backward in these districts, except in New England and New York, where it is from one to two weeks earlier than the average. The season is also backward in the southern states."

Texas Strawberries Damaged.

Houston, Tex., April 15.—Late reports from the section visited by the hail storm of Sunday night show that great damage has been done to berries, cotton and corn. The loss at Alvin to strawberries alone is estimated at \$30,000, with as much more at Webster, Dickinson and League City. Fayette county suffered greatly from hail, cotton and corn being beaten into the ground and fruit and shade trees almost stripped of fruits and foliage.

Princess In Jail.

Cape Town, April 15.—Princess Radziwill, accused of forgery in connection with notes purporting to have been signed by Cecil Rhodes, was committed to jail by the withdrawal of the bondsmen of her bond. The trial of the princess is fixed to begin on Monday next.

CONFEDERATE HOME.

In order to secure the "Home" and have the State appropriation available, the ex-Confederates and their friends must raise \$25,000. More than \$13,000 of this has been subscribed by the Confederate camps in Kentucky—Camp No. 442 of Maysville having subscribed \$150.

All ex-Confederates who have not subscribed, and all citizens who desire to give towards this laudable object, can call upon Mr. John W. Boulden at First National Bank. This is to be a free will offering. No Confederate feels like making a personal solicitation.

NASHVILLE, TENN., April 14.—The first fruit of the gigantic combine of hardware jobbers appeared in Nashville to-day in an advance of 25 per cent. on all lines of builders' hardware. Nails are the only article excepted, and they are controlled by an outside corporation, which may take even stronger measures. The advance was made by the Manufacturers' Association, and is regarded as a step to strengthen the bonds of the producers against the combined influence which can be brought to bear through the hardware trust.

Thus do we have another instance showing the beneficent workings of the Republican-fostered combines. But those people who voted that way shouldn't make a kick. They must stand and deliver to the robbers and plunderers.

PRESIDENT ROOSEVELT doesn't appear to be as anxious as he pretends to be to settle that Sampson-Schley controversy. Announcement is made at Washington that Lieutenant Templin M. Potts is to be appointed naval attaché at Berlin. It was intimated at the time of the Schley court that those who testified against the Admiral would be well cared for by the powers arrayed against him, while those who had the temerity to speak in his behalf could expect nothing at the hands of Admiral Crowinshield. It was not, however, contemplated that Potts would be rewarded, although from the standpoint of the opposition he had earned it thrice over. It was Potts who said that Admiral Schley's conduct impressed him as that of a man who was afraid, the only witness who had the audacity to say that he considered the Admiral a coward. Representative Mudd, of Maryland, who is the only member of the Maryland delegation who has had the courage to stand up for Admiral Schley from start to finish will attempt to have the appropriation for the support of a naval attaché at Berlin cut off rather than see Potts assigned to that post. He considered it an outrage that such a selection should have been made. It's enough to make an American hang his head in shame to see the President humiliate the hero of one of the greatest naval battles ever fought. Will Roosevelt suffer this added insult to Schley?

THE NEW COTTONS!

Many enthusiastic women have welcomed the spring cottons and hundreds of yards have found appreciative new possessors. No wonder admiration surrounds this dainty dress goods array. Never has the showing been larger, more attractive in pretty conceits, more charming in new variations of old favorites, more comprehensive in color and design. Every day adds new beauties to the collection. Hints of them:

Dress Ginghams, 10c., 15c., 18c., 25c., 35c., 50c.

The popularity of gingham never wanes. Manufacturers court fashion by every means. Grades have been raised, goods are finer, colors prettier, designs more individual and striking. In style and quality, we are positively giving more for the money in ginghams this season than ever.

Dainty Dimities for 15c.

Never and nowhere have such exquisite, really charming dimities—the summer dress goods loved by all women—been offered at such a price. White and tinted grounds printed in a beautiful variety of stripes and figures. The coolest shades of blue, pink, green, heliotrope, gray and canary. Some exquisite solid colors—or tinted grounds lightly powdered in tiny white dots—with handsome Persian or blended borders. Style and economy combined—the border is all the trimmings required. These dimities really rival the imported Irish goods at twice the price.

Silk-and-Cotton Fabrics, 25c., 50c.

It is no exaggeration to say they present the incarnation of loveliness in wash goods. Words can convey no idea of their radiant beauty. Exquisite pastel shades in soft self colorings or artistic contrasts. The crispness of cotton with the brilliance of silk which glint and glistens in the attractive designs. In fact, at first glance they seem to be twins of the pure silk fabrics that command several times twice their price. By the most advanced method of full mercerization the silk luster remains after repeated laundering.

English Penang, 12 1-2c.

A justly favored cotton goods long identified with this house and entirely controlled by us, continues to merit the palm of superiority. Any details of a fabric so well known is unnecessary—we simply call your attention to our strong line of patterns for 1902 and that the dye has been so improved, even the most delicate colors are guaranteed fast.

D. HUNT & SON

STRANGE ROBBERS.

Mystery on an Ocean Liner Explained at Last.

Not many weeks ago the newspapers published accounts of mysterious wholesale robberies on one of the ocean grey-bounds plying between New York and Liverpool. The authorities on board ship exerted themselves to their utmost, but no clue to the offenders could be obtained. Stateroom after stateroom was entered, and in nearly every case some valuable jewels were extracted. Scotland Yards was summoned, but the most astute thief catchers of that celebrated agency failed to meet with any success. Later developments have thrown some light on the mystery. On board receiving the constant attention of a lady and gentleman passenger was a fine large group of ostriches consigned to one J. N. Percival, Paris, France. The lady and gentleman after the steamer landed disappeared, as did the flock of feathered beauties. All trace of the birds was lost until the other day when they were unloaded at the docks at New Orleans. The tag, however, had been changed and one of the birds was missing. It turned out to be a most valuable bird, however, and the discovery was the work of a New York sleuth hound. At every visit to the hold of the steamer by the aforesaid lady and gentleman this particular ostrich was fed a jewel—either watch, diamond, ring or some other bright article purloined by this couple from the staterooms of their fellow passengers. This particular ostrich seemed to feast on jewelry. Be that as it may, the bird's feathers adorn some Parisian, and the contents of its stomach await identification in the office of the Chief of Police of New Orleans. The lady and gentleman are in the hands of the Paris police who arrested them as they were about to sail for America after having reshipped the ostriches to New York. Having no reason to return the birds as the real culprit had been sacrificed on the other side, the society for the prevention of cruelty to ostriches sold them to the agent of the great Sells-Downs shows which will exhibit in Maysville Tuesday, April 29th.

Taylor at "Ingian" will find it mighty hard to get people to accept his word any more after asserting his innocence of any connection with the assassination of Governor Goebel, and then "cutting dust" to get away from Kentucky and seek protection at the hands of the Hoosier before the law could lay its hands upon his delectable carcass. Taylor at Washington, however, doesn't have to bandy words and finds ready takers when he offers twenty pounds of granulated sugar for \$1 and ten pounds of Arbuckle, Lion or Golden Rio coffee for \$1.

MISS WADSWORTH.

A Florida Paper Pays a Handsome Compliment to One of Maysville's Talented Singers.

[Gainesville News.]

Miss Florence Wadsworth, of Maysville, Ky., who is the guest of Miss Lucile Colclough of this city, and who was here a few years ago to spend the winter with her aunt, Mrs. Alice M. Harrison, gives promise of becoming one of the foremost sopranos of the country. She has always showed a very devoted taste for music, and in the past two years has been receiving instructions in music at the Conservatory at Cincinnati, and has made wonderful progress in her studies. Her singing has been recognized in that city of music, and she is now engaged to sing in one of the leading churches in that city.

She expects to go to New York this next winter and study for grand opera, on which she has set her mind, and with her full soprano voice and her commanding presence she is quite certain of success. Her voice is most perfect and pure for one of her years, and she will make every effort to accomplish her fond hope.

Miss Wadsworth will possibly give a recital in this city before her departure for the North, and the people of our city will then have an opportunity to hear her voice, which is certainly most charming.

WEEKLY CROP BULLETIN.

Farm Work Late in Most Sections—Wheat Advanced Very Slowly—The Fruit Outlook.

[Weekly Bulletin of the Weather Bureau.] The cold weather during the first of the week was very severe and was generally accompanied by light snow. Light showers were reported at most stations the latter part of the week.

Wheat has advanced slowly and looks very thin. Some fields are being plowed up to plant in corn. Plowing for corn is in progress, but none planted. Oat sowing and potato planting have begun.

Fruit trees have only slightly started, except in a few of the southern counties. Peaches are believed to be nearly a failure, but are not far enough advanced as yet to determine positively. Other fruits look promising.

Tobacco beds are sprouting very slowly. Pastures and meadows are very backward and all vegetation is slow in starting. Farm work is late.

Seven years ago a diamond brooch was stolen from the infant child of A. L. Ferguson, now Mayor of Georgetown, but then a resident of Bourbon County. Every effort to locate it failed, but Ferguson was under the impression that a certain white man stole it. Last Saturday night the Lexington police arrested a negro woman, Hattie Lewis, and found a very handsome diamond pin on her. She claimed to have secured it from a colored woman, now dead. A description of the pin was published. Ferguson read it, went to Lexington with his wife and identified it. The dead negro woman worked at the time of the theft for Mrs. Ferguson's sister.

RIVER NEWS.

Independent Packet Will Likely Enter Portsmouth-Cincinnati Run in a Few Days.

Says the Portsmouth Times: "Negotiations for an independent river packet are going on all the time and prospects for opposition to the White Collar Line are very bright. The activity of local shippers has met with a cordial response from the independent boat owners and many of them are willing to put in boats. Last Saturday three old time river captains, all of whom have had years of experience on the river, were in Portsmouth. They came to meet various shippers and to talk over conditions and terms. All they want is assurance that the shippers will stand by them, after they have come into the trade.

"It is certain that as soon as an independent boat gets in the trade and gives a satisfactory rate on freight, that the White Collar Line will also cut its rates to meet the competition. Then the crucial time comes and if the shippers do not stand by the independent packet, it will be run out. Before a boat is put in agreements to do business with the new boat will be made by all shippers. Final arrangements will be concluded within the next few days when the steamboat trust will begin to equirm."

The Keystone State is due down this evening and Stanley to-night.

Enquirer: "Edward Stevenson, of Maysville, who was for years one of the largest sellers on the Cincinnati tobacco breaks and who served three years in the Philippines in different lines of military service, was at the Stag cafe, and said he had decided to go to Seattle and make the State of Washington his future home, and perhaps engage in sheep raising. Nothing, he says, could induce him to return to the Philippines."
